🌐 [nyhanjararandriakoto.com](https://nyhanjararandriakoto.com)

Full-stack software developer with 2+ years of hands-on experience (**C#/.NET, React**).  
Comfortable in Agile environments and infrastructure migrations. B.Eng. in Software Engineering (ÉTS, 2025).

## EDUCATION

**École de technologie supérieure (ÉTS)**  
*Bachelor of Engineering in Software Engineering*

Montréal, QC  
Aug. 2021 – Aug. 2025

## EXPERIENCE

### Software Developer (Internship 3)

May 2025 – Aug. 2025

*Desjardins*

Montréal, QC

- Migrated ~5 internal applications from **.NET Framework** to **.NET Core**, reducing startup times by approximately 30%.
- Delivered new **C#** features to production in a secure network environment with zero post-deployment incidents.
- Provided technical support to HR and Communications teams for custom internal tools, resolving an average of 3 tickets per week.

### IT Support & MS Access Developer

Jan. 2024 – May 2025

*Owens Corning (Part-time)*

Salaberry-de-Valleyfield, QC

- Designed, developed, and maintained an internal **VBA/MS Access** application used by ~20 employees, delivering 8+ new features over 12 months.
- Reduced critical application bugs by ~40% through targeted refactoring and improved validation processes.

### Software Developer (Internship 2)

May 2023 – Dec. 2023

*Schneider Electric*

Dollard-des-Ormeaux, QC

- Developed a **C#/.NET** application suite (web services, Windows applications, automation scripts) delivered on schedule.
- Optimized existing internal tools, reducing execution time on key processes by ~25%.
- Contributed to a server migration with no service interruption for ~25 internal users.
- Wrote unit tests covering critical modules and produced the associated technical documentation.

### IT Support (Internship 1 then Part-time)

May 2022 – Apr. 2023

*Owens Corning*

Salaberry-de-Valleyfield, QC

- Built an online driver registration form using **HTML/CSS/JavaScript**, replacing a paper-based process and reducing processing time by ~80%.
- Deployed and configured workstations for 15+ new employees, ensuring smooth and timely onboarding.
- Handled 10+ weekly IT requests (software, network, hardware) with a high first-contact resolution rate.

## PROJECTS

### Personal Website | *React, Vite, TailwindCSS, i18next, Vercel* | [nyhanjararandriakoto.com](https://nyhanjararandriakoto.com)

Oct. 2025

- Built a modern multilingual (FR/EN) personal website with dynamic routing and 8+ reusable components.
- Implemented full internationalization via **i18next** and automated continuous deployment via **Vercel** (CI/CD).
- Achieved a Lighthouse score  $\geq 90$  in performance, accessibility, and SEO.

### Mobile App – Capstone Project | *React Native, Firebase, REST API* | [GitHub](https://github.com)

Apr. 2025

- Developed an Android/iOS application in a team of 6 — implemented the **Stripe** payment system, **Firebase** authentication (sign-up, email verification, and password reset) and the associated frontend screens.
- Integrated an external REST API and **Firebase** (Auth + Firestore) for user management and application data.
- Met a 4-month delivery schedule with full technical documentation and a professional final presentation.

## TECHNICAL SKILLS

**Frontend:** HTML/CSS, JavaScript, TypeScript, React, React Native, Next.js, Tailwind CSS

**Backend:** C#, .NET / .NET Core, Java, Python, Node.js, REST API, GraphQL, MongoDB, SQL / PostgreSQL

**Tools:** Git / GitHub, Azure DevOps, Docker, Figma, VS Code, MS Access / VBA

**Concepts:** OOP, SOLID Principles, Modular Architecture, CI/CD, Unit Testing
